

NC Women of Color Research Network Symposium

Building Your Research Identity

Join the North Carolina Women of Color Research Network for the Spring 2023 Symposium, “Building Your Research Identity.”

The symposium will be held Thursday, May 18, 2023, in Talley Student Center on NC State’s Main Campus, 9:00 a.m. – 1:00 p.m..

The NC Women of Color Research Network (NC WoCRN) is a statewide network of researchers representing academia, government, and industry. The Network is a product of the National Institutes of Health (NIH) Working Group on Women in Biomedical Careers and its Women of Color Research Network (WoCRN) .

The Symposium will offer speakers, panels and networking opportunities focused on promoting career advancement by broadening participation of women researchers and scientists of color, establishing collaborations and partnerships, multi-level mentoring, outreach, and professional networking.

We welcome all researchers – from undergrads to senior faculty, community members, businesses and agencies. Please register at the link below for additional details.

For questions, please contact the Symposium Planning Committee:

Dr. Sharonda LeBlanc (sleblan@ncsu.edu), NC State, Physics Department (Network Co-Chair)

Dr. Ericka Reid (ericka.reid2@nih.gov), NIEHS Office of Science Education and Diversity (Network Co-Chair)

Dr. Stephanie Helms Pickett (smhelmsp@ncsu.edu), NC State Office of Institutional Equity and Diversity

Ajaya Francis Jonas (ajaya_francisjonas@ncsu.edu) NC State, College of Education Dr.

Molly Puente (mepuente@ncsu.edu), NC State, Proposal Development Unit

Dr. Jamila Simpson (j_simpson@ncsu.edu), NC State, College of Sciences
